

Sonoma Skypark News SEPT, OCT & November

Airport Happenings It has been a while since a newsletter has gone out so here is the latest and greatest around Skypark. **Epic Aircraft** - Skypark pilot **Sam Macintosh** was picked up this morning in a brand new epic aircraft. He is working as a consultant with Epic and has had a few trips in and out of Skypark. It is quite a site to see take off. **Team Falken** is at it again, this time doing an engine swap for the last Red Bull air race of the season. Skypark Pilot **Ben Freelove** ferried the Edge 540 to Skypark in mid-October and their team has been working on it nonstop. **Sonoma Ballooning Adventures** - **Rafe Tomsett** recently had the chance to go for a ride in a hot air balloon with Sonoma Ballooning Adventures. Rafe said he enjoyed the experience and he can't wait to go again, if you are on Facebook check out the Skypark Page for Rafe's photos. Speaking of Facebook.... If you follow us on Facebook you'll be updated on every event we have at Skypark such as movie night, family Funday and the Christmas party (spoiler alert it's December 7th). **Parking Lot Gas Station** – **Ron Price** and **Rafe Tomsett** have been working their tails off on the vintage gas station project since this summer. It is really starting to take shape, when it's all done it will be one of the nicest around. Keep up the good work guys :)

Young Eagles –Young Eagles is scheduled for this Sunday November 11th. 9 am till noon.
