

*DECEMBER 2022*  
*SONOMA SKYPARK!*

Ben and his amazing "UAL" RV

Our partners SVFD and REACH

Young Eagles was a great success on Sunday 11/13. Thank you to Kimberly for volunteering her time and registering the children. Thank you also to the pilots who offer the children a great time: Darrel Jones, George Bachich, Mark Shackford, Tim Bloodgood, and Chris Towt.

We had amazing guests on 11/10. A beautifully restored De Havilland Beaver (headed for Alaska), and a gorgeous RV.

**Mark Shackford is doing a great job repainting all the tie-down tires and designating spaces around the office as “TRANSIENT”**

As Manager of Sonoma Skypark, I take safety very seriously, not only for employees, but for resident and visiting pilots. As my knowledge of fueling systems was lacking I requested free TITAN Training (our fuel supplier) through the top GOLD Level. Did I learn a LOT (and I have SO much more to learn)! Our Assistants will also go through this training.

Question: What is the first action to take if product is spilled onto your clothing?  
 Answer: Douse the clothing with water FIRST before removing immediately.

Question: In aviation, what does “Bonding” mean?  
 Answer: The electrical potential of all bodies is equalized.

Question: What is the maximum life of a refueling hose?  
 Answer: >10 years since date of manufacture (ours was just replaced!)

*May you all have a very Merry  
Christmas!*

*The Sonoma Skypark Team;  
Tina, Mark, Robin, Steve, Jon, Bob,  
and Richard*
